

APP DEVELOPMENT

ABOUT THE APP

The app goes by the name Lotto GraZer and is meant to give English and French speaking lotto, forecasters and players a guide to getting winning numbers on their favourite 5/90 lottery games daily. The app is meant to present daily prediction of potential winning numbers on a variety of lotto games, also it will showcase a comprehensive (read only) lotto key book to help lotto forecasters / players get an insight into how they can get potential lotto winning numbers for their favourite lotto games, it also present real-time update of result of variety of lotto games. The app will also showcase essential charts and Timing keys that are calculated using algo patterns created by the lottery system.

Users will have the option to use all the features of the app for free, with ads (picture & video ads), *(except access to the book and lotto keys-forecast details)* or choose to sign up and activate, with a unique ID or in-app purchase, to enable them use all the features in the app without ads for 1 month. Users will have an option to activate a push notification, for result update, predictions and new timing keys added.

The app will provide data for 5 major 5/90 lottery game types:

1. Ghana - **National Games**
2. Ghana - **Alpha Games**
3. Nigeria - **Premier Games**
4. Nigeria - **Golden Chance Games**
5. Togo - **Loto Bonheur Games**

The table below shows the lotto games offered by each lottery.

CHAPTER 1

INTRODUCTION

The Perfect guide to Win Lotto Daily

You may ask what is Lotto? and why are so many people eager to win. Lotto is a game offer by lottery operators and regulated by gaming authorities to ensure fairness in draws, lotto game tends to draw 3, 4, 5 or six numbers from a set of numbers and promises huge reward for players. There are a lot of lotto game system that exist but in west africa the 590 lottery system seem to be the major lottery system adopted, were five(5) balls is drawn from ninety(90) balls without repetition and players are expected to pick atleast two correct numbers to win. The next question might be, how then do i know which of these ball number(s) to pick to win? or you are probably wondering, if a lottery number ball has memory and if there is anything like lotto keys that can tell the next winning ball to be drawn.

The answer is YES! there are systemic patterns and timing keys that suggest that the lottery ball may have a memory and timing keys that has been seen to consistently unlocked winning number(s), that can't be mere coincidence.

So you might have seen yourself countless of time, dreaming of winning the lottery and what your life would be like after a big winning.

These dreams are what inspired me to write this book. But this book is not about fantasies or imagination. It about helping you, make that dream of winning the lottery a reality. Over the past 12 years i have analyzed the lottery algorithm and found out that the lottery system has a complex algorithm, and uses set of mathematical modeled keys to generate the next winning numbers in the absence of fraud.

It is a known fact that for the 590 lottery system the odds of picking two winning numbers (2 Sure) is 1 in 4,005 and three winning numbers (3 direct) is 1 in 117,480 with this high odds, it might seem very difficult to win a 2 sure or 3 direct Stake. But past record has shown that mathematical models has an ability to drop the odds by 60% and predict the next potential winning numbers.

So, in this book i have tried to, showcase the 590 Lottery system Plans, Keys and projected Numbers you can use, over and over again, to win the lottery daily.

It covers on its board plans and across board plans on the 590 Lottery System, for a 3, 4 and 5 times plans. It explores the 590 lottery past winning number chart, lottery system to deliver it winning numbers, and how to use the lottery system to win the lottery system.

PROGRESSIVE NUMBER KEYS

Progressive Number Keys are potential lotto keys generated by using a plan pattern that transform numbers in two events to Sign Code. this is done, by checking if the next box ball value is greater or lesser than the one before it, (e.g if the value in box 1 is lesser than that in box2 ~ sign code is **Positive(+)**, but if the value in box1 is greater than that in box2 then the sign code is **negative(-)**, if same the sign code is a **dot(.)** These sign codes are then used to decipher timing keys, that is likely to be used by the lottery system to drop its next winning numbers.

EXPLANATION

The lotto grazer app utilizes 8 key plan strategies, these are:

1. Lapping Numbers (Horizontal, Vertical and Diagonal).
2. Polar Addition Number.
3. Event Summation
4. Ball Spacing (Horizontal and vertical)
5. Constant Number
6. Pivoted Number(upward and downward)
7. Sequential number
8. Progressive Number(Horizontal & Vertical)

These 8 key plans are designated with an illustrative structure that gives details of the key plan, numbers and position under study.

The app starts with an attractive app logo (L(5/90)TTO GRAZER), then moves to the next frame, where, users are to choose their preferred language,(English or french), once they click enter, the app content is displayed in their preferred language.

The next frame gives the user an option, to login or sign up. if they are already a registered member they can login with their email or phone number and password to login as a registered member or simply click on Continue Free with Ads, to use some of the feature of the app for free with ads

. The features that can be viewed for free include:

1. Lotto forecast today.
2. Lotto result
3. Over-due numbers
4. Grenco key chart
5. Saved plans
6. Classification chart
7. Group number chart
8. Column number chart
9. Ending number chart
10. Find and compare events
11. Lotto keys : free users can only view and search for the lotto keys available for the 8 key plan patterns, but restricted when they try to view the forecast details.
12. The Radical Lotto key book : Free users can only view up to the introduction of the book and prompted to click to continue. Access is denied for free users and they are prompted to register to get access.

Users can be a registered member by clicking the sign up button to register with their email/phone number, a password. After which they will have to choose to activate using in-app purchase or with a unique Id, I have given to them, that give access for 1

month of usage after which account runs on free mode feature ,user will need to subscribe, via in-app purchase *or get a new unique id.*

Note: *Multiple users can not register with one unique id,also multiple users can not login at the same time with same login details.*

The next frame , showcases the tab icon and name of features the app offers. The first row is static, second row and third row is dynamic, it can be scroll sideways to reveal other featured icon.

When users click the **Lotto Forecast Today**,it showcase a frame with a little explanations and all featured games for only that day uploaded so far, it will also show the lottery game name, draw number and date forecast-ed for,and a view forecast button.

Users will have to click on the view forecast button to view details about the forecast and projected numbers they can stake on.

The forecast details will have the lottery game name, the plan name and it illustrative structure for numbers understudy, reference events(*this is not fixed it can be 2,3,4 or 5 references*), key forecast(*this can span through many lines*), projected numbers and best 3 and 5 stake numbers.

Note:

- 1. one should be able be able to uploaded forecast prior to the date and make it display only on the scheduled date after which it disappears.*
- 2. Free users should view atleast 2ads(1 promotional and 1 interstitial) every 5minutes they use the app. Any additional ads should be integrated in such a way that optimizes ads delivery and avoids ad - limit.*

When users click **the Radical lotto key book** icon, it will display a read only book, up to the introduction of the book, user are expected to click continue ,to continue reading. Free users don't have access when they click on continue reading. They will be redirected to register to get access.

When the **Lotto Result** icon is clicked, it showcases a frame that gives user an option to either view today's result or last 20 lotto draws for a particular lottery game *from the database*. When today's result is click it display all result uploaded so far for only that day, it shows, the lottery game name, draw number, draw date, the five winning numbers and the five machine numbers.

If user decides to click on the last 20 draws, a frame opens that require the user to select lottery type, and lottery game and search, to reveal the last 20 lotto draws for that game, with its date ,draw number and the winning and machine numbers.

When **Over-Due numbers icon** is clicked, it showcase a frame that displays, an explanation about overdue numbers, and all featured game for only that day, users can click view to expand and reveal the 10 numbers and their draw delay frequency values, as uploaded. The ability to upload this prior to display date,is required.

When **Grenco Key Chart** icon is clicked on it showcases a frame, that displays,an explanation about the grenco key chart, and requires the user to choose the lottery type, counting weeks, and either to view all available keys on that lottery type, or choose to search for a particular key.

If the user picks the ***view keys***, it displays all the available keys for that lottery type, that has the specified counting weeks chosen.Users will have to click view details on their choice of key to enable them, view the forecast details.

If user picks the ***key search***, the user will be required to select first number, second number and counting weeks before they can search. Once they search, only keys that marches up the selected numbers and counting weeks will display, else if their is non, it simply display no available key.But from the option found, users can click view details to view the forecast details.

When **Save Plans** icon is clicked on, it showcases a frame that display, an explanation about saved plans, all plans that has been saved by the user, in a miniature form that will only display the draw number, plan, game name, date it was forecast-ed for and a structural illustration of the position and numbers understudy.The user can click on view details to view the forecast details of that event.

When **Classification Chart** icon is clicked on, it showcase a frame that displays letter keys and 10 column and 45 rows, with predefined static numbers, the page is scroll sideways to reveal another 10 columns and 45rows, which makes it a **10 column by 90 rows**

When **Group Number Chart** icon is clicked on it showcases, a frame that displays a predefined static numbers, in a 10 column by 9rows format.

When **Column Number Chart** icon is clicked on it showcases, a frame that displays a predefined static numbers, in a 10 column by 9rows format.

When **Ending Number Chart** icon is clicked on it showcases, a frame that displays predefined static numbers, in a 10 column by 10rows format.

When the **Lapping Number Key** icon is clicked on , it showcases a frame that displays, an explanation about lapping number keys and requires a user to ***select a lottery type, counting weeks*** and then either view keys or search for a key. If a user click on ***view keys***, all available keys and pattern will be displayed for that lottery system, a user can then click view details to view forecast details of their, key choice.

If a user decides to ***search for a key***, user will be required to select lapping number key pattern(*horizontal,vertical,diagonal*) ,input five(5) winning number of the draw event they want to understudy, before they can search.when a user clicks the search button the five(5) inputted numbers are used to check for match with key plans stored.

if their is a matched key,it is displayed in a miniature form showing board plan(*on board or across board*), counting weeks ,date it was uploaded and a structural illustration of the position and numbers understudy, when users click view details, it

will then display the forecast details. *Note that only register users can have access to view forecast details. Free users can view or search for keys but restricted when they try to view forecast details.*

When the **Polar Addition Key** icon is clicked on , it showcases a frame that displays, an explanation about polar addition keys and requires a user to ***select a lottery type, counting weeks*** and then either view keys or search for a key. If a user click on view keys, all available keys and pattern will be displayed for that lottery system, a user can then click view details to view forecast details of their key choice.

If a user decides to search for a key, user will be required to **input five(5) winning number** of the draw event they want to understudy before they can search.when a user clicks the search button the five(5) inputted numbers are used to check for keys (*adding the 1st and 5thbox winning = **addition** and a constant that has the same number and position*)that matches with key plans stored.

if their is a matched key,it is displayed in a miniature form showing board plan(*on board or across board*), counting weeks ,date it was uploaded and a structural illustration of the position and numbers understudy, when users click view details, it will then display the forecast details.*Note that only register users can have access to view forecast details. Free users can view or search for keys but restricted when they try to view forecast details.*

.

When the **Event Summation Key** icon is clicked on , it showcases a frame that displays, an explanation about event summation keys and requires a user to ***select a lottery type, counting weeks*** and then either view keys or search for a key. If a user click on view keys, all available keys and pattern will be displayed for that lottery system, a user can then click view details to view forecast details of their key choice.

If a user decides to search for a key, user will be required to input five(5) winning number of the draw event they want to understudy before they can search.when a user clicks the search button, the five(5) inputted numbers are used to check for keys (*sum up of 1st -5thbox = **sum** and a constant that has the same number and position*)that matches with key plans stored.

if their is a matched key,it is displayed in a miniature form showing board plan(*on board or across board*), counting weeks ,date it was uploaded and a structural illustration of the position and numbers understudy, when users click view details, it will then display the forecast details *Note that only register users can have access to view forecast details. Free users can view or search for keys but restricted when they try to view forecast details.*

When the **Ball Spacing key** icon or **Sequential Number key** icon or **Progressive Number key** icon or **Constant Number key** icon is clicked on , they will all showcase a frame that displays, an explanation about their keys respectively and requires the user to select a **lottery type** and **counting weeks** then, either ***view keys*** or ***search for a key***. If a user click on view keys, all available keys and pattern will be displayed for

that lottery type and counting weeks picked, a user can then click view details to view forecast details of their key choice.

If a user decides to search for a key, user will be required to input five(5) winning number of one(1) or Two(2) draw event(s) they want to understudy before they can search. when a user clicks the search button, the inputted numbers are used to check for keys.

if there is a matched key, it is displayed in a miniature form showing board plan(*on board or across board*), counting weeks, date it was uploaded and a structural illustration of the position and numbers understudy, when users click view details, it will then display the forecast details *Note that only register users can have access to view forecast details. Free users can view or search for keys but restricted when they try to view forecast details.*

The Find & Compare event: is for users to find past result to verify forecast using references as well as help them forecast their favourite lotto games by finding matches on chart.

Number of events: this is where the user select the number of event he wishes to find and compare. (1-5 events). *not more than 5 events*

Find By : this is where the user choose if he want to search by date or by event number.

Weeks Below: this allows the user choose how many event will display after the event number, or date picked.

Note: this 3 selection will determine what will be presented to the user to filter his search. as seen on the wire frame.

Lottery Type, Lottery Game, Enter a Number and Choose a Date: This allow the user choose, the preferred lottery type, game as well as enter an event(draw) number, if he is finding by event or a date, if it is by date.

*If a user for instant decide to pick ; number of event : 1 , find by: **event number**, weeks below : 2*

Then a display for only one event will display were he will need to pick the:

Lottery type : ghana national

Lottery game : midweek

event number ;29

Then clicks on search, to display the event with 2 events below and 27 event above to give a total of 30 events(note: events should not exceed screen frame, if there is a need to review the total number of event that fit on a frame please let me know))

On the displayed event numbers, each numbers will be a light button having 3 colours (green, red and yellow), a first tap on button will show a green colour, a second tap will show a red colour, and a third tap will show a yellow colour and a fourth tap shows no colour.

NUMBER OF EVENTS : 1 - 5

WEEK BELOW ; 1 - 28 (28 event weeks below the entered event/date maximum)

Past event data is in (CSV) format, will be loaded into the database for each lottery type and game. Where search can draw its data from as shown below

GOLDEN TREASURE											
DATE	DRAW NO	WINNING						MACHINE			
25/05/15	1	66	45	76	57	51	14	73	62	74	23
01/06/15	2	11	66	64	50	73	13	40	34	41	85
08/06/15	3	83	50	83	34	20	78	2	8	56	77
15/06/15	4	79	70	10	42	50	49	34	21	85	35
22/06/15	5	21	5	41	13	8	14	47	37	25	61

VIEW REFERENCE CHART

The view reference chart, button is place on the forecast details frame for **Todays Forecast**, **Greenco key chart** and for the **8 key plans**. (this simply means that the view reference chart button will be located on every forecast details frame).

Let me now explain what the view reference chart button will accomplish.

*When the view reference chart button is click on it should display the charts in a similar way to that of the **find and compare**, earlier explained, but instead of users manually imputing reference details, this is done automatically by displaying the forecast details reference event on a frame that they can toggle sideways to see each ,and then they can verify the key forecast, by using the **light/colour button** to mark off the numbers hinted on the key forecast to compare or verify if claim is true before deciding to stake on the projected numbers.*

The weeks **below** for today forecast = **1**

The **weeks below** for Greenco key chart and lotto timing keys = is specified when uploading details and varies.

The reference event numbers are not always (123 - 124) . Those plan that require two event, has the reference format as (123 -124), while those that uses a single event only has a reference format (123). In the case of (123 -124) format, the last digit will be used for the search. Also in the forecast details I will have to spell out the weeks below.As it will be used to enhance the reference chart search.

Key -Plans and their reference format.

123 - 124

*Lapping numbers (vertical & diagonal)
Ball spacing (vertical)
Pivoted numbers(up & down)
Progressive numbers (vertical & diagonal)*

124

*Lapping numbers (horizontal)
Ball spacing (horizontal)
Event summation
Polar addition
Sequential number
Constant position*
